

Theatre Management Feature

- Preset theatre availability for scheduled and adhoc closures.
- Set the opening and closing times of operating theatres.
- Configure which surgeons or departments are allowed to perform procedures in each theatre.

Benefits of Theatre Management

- Optimises operating theatre use by improving the booking process.
- Booking functions will consider the operating theatres' availability schedule, providing a smoother booking experience.
- Improves the efficiency of operating theatre by allowing only certain procedures to be done on certain operating theatres.
