# Getz Touch Device Interface

GCC can interface with most models of patient monitors including ventilators, bispectral index (BIS) monitor, and cardiac monitors. The Getz Touch Device can automatically capture patient data from the patient monitor for recording and insights purposes.

These are the common patient monitor models that can interface with the Getz Touch Device:

| | | | | | | |
|---|---|---|---|---|---|---|
| Aspect A2000 | Biolight Anyview A5 | BSM-3000 Series | Comen | Criticare | Drager Infinity Kappa | Drager Vista 120 |
| GE Carescape | GE Dash | GE Solar | Mindray umec12 | Nihon Kohden 3000 Series | Nihon Kohden 6000 Series | Welch Allyn |
